

Barbara Visciano

VISUAL ARTIST · PAINTING · MATERIAL PRACTICE

Born in Livorno · Lives and works in Fauglia (Pisa), Italy · www.barbaravisciano.it

PROFILE

Barbara Visciano develops a practice spanning painting, matter and natural processes, exploring the relationship between the human, nature and time. Since 2021 she has been developing the series Quadri Indeterminati ("Indeterminate Paintings"), in which the pictorial intervention engages with the transformations produced on the canvas by the action of the subsoil and natural elements.

ARTISTIC TRAINING

She approached painting through her training with Ferruccio Rosini, with whom she deepened the technique of oil painting, later continuing her research under the guidance of Angelo Foschini. Studio practice forms the foundation of a research progressively oriented toward abstraction, matter and the interaction between natural processes and the painterly gesture.
